QUALITY ASSURANCE

*This is our simple **NO B.S.** policy:*

If you do not like our equipment and we cannot satisfy you within 30 days, Marine Gangways will take back the equipment and refund the full purchase price!

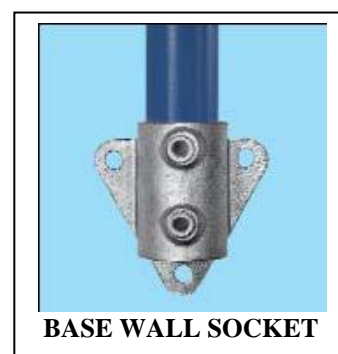

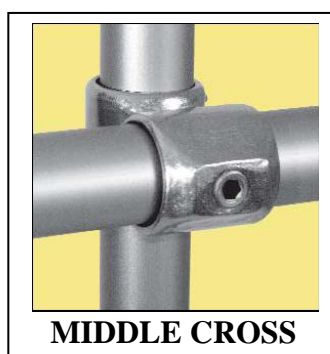

(Freight Charges and special orders are not included)

All of **MARINE GANGWAYS'** products are guaranteed to satisfy the most discriminating customer. Each product is short arc welded by a certified welder, not a robotic machine. Attention is paid to detail and function to operated under the most stressful and inclement conditions.

MARINE GANGWAYS are on ships and barge docks all over the world. We understand that anything to do with the marine industry is physically and mentally challenging, so we manufacture our gangways and other products with inclement weather and **people in mind**.

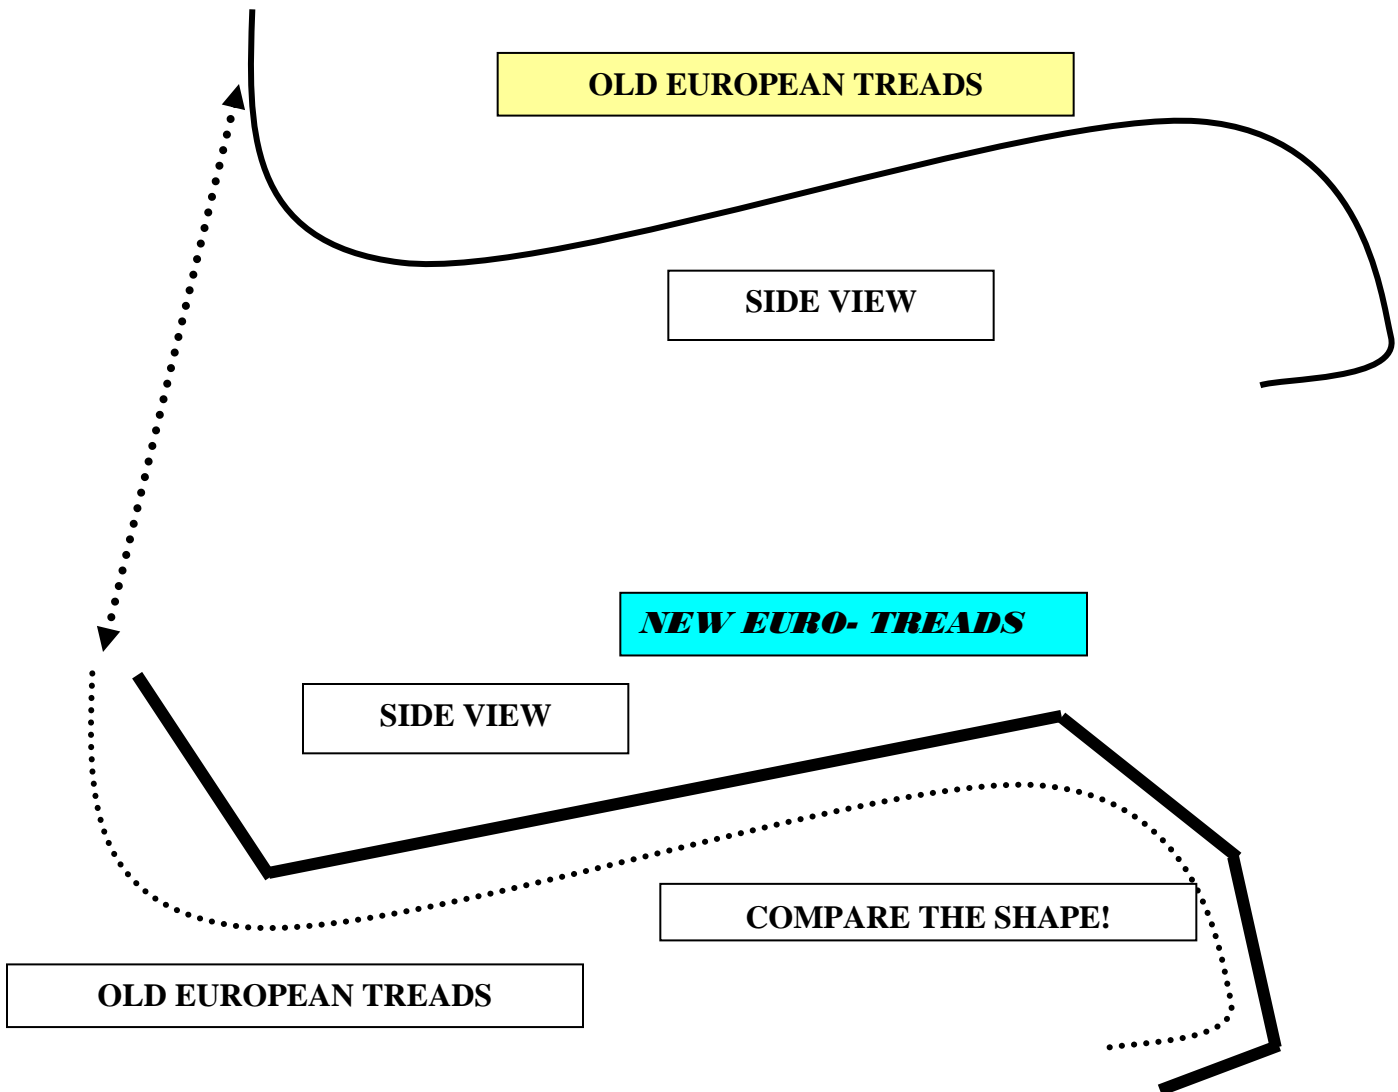

HANDRAILS IN KEE KLAMP RAIL FITTINGS

MARINE GANGWAYS' handrails are placed in fittings so that the customer can replace damaged sections, not the entire welded handrail. See pictures below.

NOW! EURO-TREADS MADE IN THE USA

**REPLACE YOUR OLD EUROPEAN TREAD DESIGN WITH
THE NEW EURO-TREADS
STANDARD WIDTHS FROM 24" TO 30"**

A DIVISION OF
REMMEL ENTERPRISES, INC.

REPAIR THOSE TIRED OLD GANGWAYS!!!

According to the US Coast Guard and OSHA, all marine gangways must be “in good repair and safe condition”. If your gangways are not in good repair and safe condition let us repair them. We have an expert staff with over 20 years combine experience in repairing gangways that are damaged and in poor condition.
